We lost our horses | Organic Matter, yielding Ammonia. at Dubuque--they were stolen from us .-- | Water...... hundred miles from Omaha. We then tried hundred miles from Omaha. We then tried Sand and other insoluble matter. 15.92 wheel barrows, my wife and I wheeling by turns, till the Indians stole our barrows.— Then we walked, till the Indians stole our Then we walked, till the Indians stole our provisions, and my family got sick; so I had to carry them all on my back. Our money Having accepted the Agency for the sale of this gave out long before, and for two weeks we travelled through a wilderness where the foot of human being had never trod. In this condition, seeing no living being, and without money to purchase even a cracker at any of Organic Matter, yielding Ammonia........

rooting so long.
"I have carried my family on my back till 1 am so round shouldered that I can only see | Phosphate of Lime.... the blue sky and the bright sun by looking Carbonate of Lime ... between my legs, up to heaven's canopy that way. I lost two hundred pounds of flesh -horse meat-when I started from Dubuque, or we should have got along better.

"There is gold here-lots of it. The go phers dig it out of the ground by the bushel, and in the moonlight the whole earth for miles round looks like heaven with its myriad of stars, or like a pretty girl with yellow freckles. The woodchucks dig out bushels and bushels of it, and the snakes in this country look like solid gold ones, from crawling among gold chunks! It is found in all sized pieces, from the size of a hen's egg up to the bigness of a large stone, and of the finest

"We have raked together what lay loose on an acre of ground, and have twenty-two piles about as big as a large sized hay stack!!! comb that my wife had to use on the children, and we barricaded our house with rocks of gold until they could not gain admittance and were forced to beg to make friends with us. The chief laid down his weapons and came into our camp, when my wife used was as lively as his head was, and he was so tickled that he offered to marry my wife, and show me where gold was in plenty. I love my wife—you know that George, but thinking that I might die before I got rich, and feeling that I must make some property to phosphate of lime, it is found to containleave my children, I consented to the match, and she has gone off with the Indian, who is a great chief, and taken the fine comb with her! Come out with your wife, and bring a

fine comb, brother George. "I am going to leave these diggings for a better one. It is too much trouble to tug and pry up the great big chunks of gold that weigh half a ton or so and are so thick you cannot get them out without danger of breaking your legs, and am going up to a ravine, where all I have to do is to go to the top of a high mountain and roll it down to the river.

The country here is fine, but the winds are awful. My boys got so light with eating roots, that I can only keep them by me, or together, by piling lumps of gold, about as big as mallets, on their shirt tails, as the little innocents sit down on the grass to play .-Every thing grows here. I can raise twenty bushels of wheat to the acre. Oranges, lemons and all such colored fruits grow wild here,

ALLOWANCE TO FRENCH SOLDIERS. The allowance granted to the French soldiers is not sumptuous. A recent letter says: "Speaking of the army pay, it is not amiss to mention that the allowance for the keep of a day. Some of our friends in England ees known to us to be reliable. seem to think that these gallant fellows are fed on Pate de foie gras, or, at any rate, that the barrick cooking is quite artistic and delicious. Now, the fact is simply this:-French soldiers in garrison have, every day of their lives, two basins of soup with the strings in it, which they call meat, and perhaps a few bits of onion or vegetable by way of giving it a flavor. Besides this, each man has 14 lbs. of coarse bread-nothing more .-When on service they have a little wine; but, otherwise, except on grand occasions, such as review, they have none, nor any spirits, beer or coffee."

The best definition we ever heard of "bearing false witness against your neighbor," was given by a little girl in school. She said it was when nobody did nothing, and somebody went and told of it.

Leave your grievances, as Bonaparte did his letters, unopened for three weeks, and it is astonishing how few of them at the end of that time will require answering.

CAUTION.—We beg leave to caution purchasers of our choice OLD MONONGAHELA WHISKIES against the deception and petty fraud which is practiced by certain parties in this city and in Baltimore, who have appropriated to them-selves exact copies of the Star Brands, long used and designed by us to distinguish our Old Whiskeys. We can assure our friends and customers, that the unrivalled quality, everywhere acknowledged, of our choice OLD WHISKIES, cannot be equalled by these ingenious invaders of our rights. Our new establishment, Gibsonton Mills, on

the Monongahela River, gives us unequalled facilities for making Whiskey of the choicest kind, from malted and kiln-dried grain.

Purchasers of our Old Whiskies will please to

notice, the words GIBSONTON MILLS and JOHN GIBson, Sons & Co., are inserted in the new Brands which we now adopt; and we deem it a duty to our customers and ourselves, to give notice, that we will prosecute and expose any person or persons who may hereafter copy or use our Brands.
